Median bonus pay ⁸

In this organization women's median bonus pay is 9% more than men's. For every dollar men earn in median bonus pay, women earn \$1.09 in median bonus pay. *

Percentage of employees in each gender category receiving bonus pay

Explanatory notes

7. "Mean bonus pay" refers to bonus pay when averaged for each group.
8. "Median bonus pay" refers to the middle point of bonus pay for each group.

Percentage of each gender in each pay quartile ⁹

Upper hourly pay quartile (highest paid) †

Upper middle hourly pay quartile †

Lower middle hourly pay quartile †

Lowest hourly pay quartile (lowest paid) †

■ Men
■ Women

In this organization, women occupy 34% of the highest paid jobs and 20% of the lowest paid jobs.

† This pay quartile was reduced to suppress gender categories consisting of less than ten (10) employees.

Data constraints

81% of men and 49% of women receive overtime pay. This difference is largely attributable to role distribution within CDS. The majority of our workforce is employed in warehouse positions, where women are underrepresented. As a result, fewer women have access to overtime opportunities overall. Additionally, when overtime is available, women may be less likely to accept it based on personal preference.

Explanatory notes

9. "Pay quartile" refers to the percentage of each gender within four equal sized groups based on their hourly pay.

* In accordance with the Pay Transparency Act and reporting rules designed to protect the anonymity and privacy of respondents, one or more gender categories has been excluded due to insufficient numbers to meet disclosure requirements.
